

Webinar
NATIONAL DIGITAL LIBRARY OF INDIA: TRANSFORMING EDUCATION

Organized by
Central Library, Parul University

A webinar was organized on 26 June 2020 by NDLI in collaboration with Central Library Parul University with an aim to introduce the NDLI platform to the unknowns and to guide the participants on how to effectively use the variant resources including eBooks, audio books, audio lectures, video lectures, presentations, notes, etc. About 2340+ participants from all over India took the advantage of this opportunity. The participating librarians were asked whether they would like to contribute their institutional research work to the NDL platform. Parul University has taken the initiative to be the bridge between the Ayurveda and Homoeopathy colleges and the NDLI and add their literature to the platform.
