Ending the HIV Epidemic: A Plan for America

This issue includes a special dossier on the current state of the fight against HIV in America, featuring research on trends in multiple regions, patterns of transmission, and best strategies for treatment and prevention. The issue also includes research and perspectives on workplace safety, the relationship between diet pill/laxative use and future eating disorders, diaper need for low-income families, and more.

The *American Journal of Public Health (AJPH)* is dedicated to the publication of original work in research, research methods, and program evaluation in the field of public health. The mission of the journal is to advance public health research, policy, practice, and education.
