

PARUL UNIVERSITY
FACULTY OF SOCIAL WORK
BSW, Summer 2018-19 Examination

Semester: 6
Subject Code: 10101354
Subject Name: Social Work Research

Date: 22/04/2019
Time: 10:30 am to 1:00 pm
Total Marks: 60

Instructions:

1. All questions are compulsory.
2. Figures to the right indicate full marks.
3. Make suitable assumptions wherever necessary.
4. Start new question on new page.

Q.1 A) True or False (Each of one mark) (10)

1. Fundamental research aims at finding a solution for an immediate problem
2. Research is all about finding the solution for an existing problem/ issue.
3. Internet sources are used to collect primary data for research study.
4. A survey is a list of questions aimed at extracting specific data from a particular group of people.
5. Case study method is a form of qualitative analysis.
6. Primary data are the first hand data in research.
7. Formulation of the problem is the first step of Research Process.
8. Social Work Research is systematized effort to gain new knowledge.
9. Non Probability sampling techniques are used by qualitative researchers.
10. There are 15 steps for Research Process.

Q.1 B) Coding is one of the steps involved in data processing and analysis. – Comment. (05)**Q.2 A) Answer in one sentence. (Each of one mark) (10)**

1. What is Historical Research?
2. Mention any two types of Observation.
3. Differentiate primary and secondary data.
4. What is Area sampling method?
5. Mention the basic difference between questionnaire and interview schedule.
6. Write one of the importances of survey in research.
7. Give the meaning of empirical research.
8. Mention all the types of probability sampling.
9. What you mean by secondary data?
10. What is quantitative research?

Q.2 B) Define the following terms. (05)

1. Social Work Research
2. Sampling

Q.3 A) Any research study should follow a specific procedure and steps to achieve the outcomes.- Explain with reference to Research Process. (10)**OR****Q.3 A) Write a detailed note on various types of research. (10)****Q.3 B) Write the concept and objectives of research. (05)****Q.4 A) Explain in detail the types of sampling method with relevant examples. (10)****Q.4 B) Explain in brief Tabulation as a part of data analysis. Give the example as well. (05)****OR****Q.4 B) Write a short note on Case study. (05)**
