1. Calibration and Validation of Micro-simulation (S-Paramics) Model for Merging Sections <i>Hamid Al-Jameel</i>	1
2. Finite Element Modeling of Asphalt Concrete Pavement Reinforced with Geogrid by Using 3-D PLAXIS Software <i>Mohammed Abbas Hasan Al-Jumaili</i>	12
3. Improvement Assessment of Traffic Operating Condition by Applying Common Traffic Management Tools Using Corsim Simulation <i>Tushar Chowhan, Shapla Rani Ghosh</i>	21
4. Economic Assessment of Flyover <i>Nihal D. Chhatbar, Praful A. Shinkar</i>	54
5. Experimental Investigation on Utilization of Blast Furnace Slag as Fine Aggregate in Pavement Concrete <i>B.G. Buddhdev, H.R. Varia</i>	58
6. Rut Depth Modeling of Modified and Unmodified Asphalt Mixtures by Using Finite Element Approach <i>Mohammed Abbas Hasan Al-Jumaili</i>	65
7. Financial Impact Due to Rehabilitation and Resettlement Policy of Asian Development Bank in Implementation of Highway Projects under NCRPB Scheme <i>Aman Ahlawat, Singh G.I, Manjeet Kumar</i>	79
