INTERNATIONAL JOURNAL OF DATA MINING

EMERGING TECHNOLOGIES

International Journal of Data Mining and Emerging Technologies

Contents

	Page No.
1. A Comparative Analysis on Machine Learning Algorithms Implemented on Map Reduce Paradigm — <i>Ananthi Sheshasayee, J.V.N. Lakshmi</i>	1
2. A Theoretical Study on Advanced Techniques in Pre-processing and Text Classification — <i>B. Ramesh, J.G.R. Sathiaseelan</i>	6
3. Comprehensive Study of Privacy Preserving Techniques for Distributed Database — <i>Ashwini M. Jani, Kalpit R. Chandpa</i>	11
4. Web Content Mining of Hepatitis-C Community Forums for Identification of Most Frequently Transpiring Lexis — <i>Jatinderkumar R. Saini</i>	18
5. Rough Clustering using Credibilistic Critical Values — <i>S. Sampath, R. Senthil Kumar</i>	24
6. Data Farming Algorithm with Temporal Medical Events — <i>Mohd Shahnawaz and Kanak Saxena</i>	31
7. Efficient Text Mining Prototype for Big Data — <i>D. Rajagopal, K. Thilakavalli</i>	38
8. Comparative Study between Two-Class SVM and One-Class SVM Classifiers for Outlier Detection for Disease Diagnosis — <i>Kalpiti R. Chandpa, Ashwini M. Jani</i>	42
9. Hybrid Ensemble Feature Selection for Heart Disease Prediction System Using an NMF Hierarchical Clustering — <i>A.V. Senthil Kumar</i>	49
