Volume 7 • Number 1 • January-June 2014

Contents

Energy Saving Techniques in Ad hoc Networks	1-8
<i>R. Durga Bhavani, S. Nagamani, V. Asha</i>	
Investigation of Energy Consumption for Wireless Sensor Networks Based on Commercial Chipsets Like: TR1001, CC1000, CC1010	9-14
<i>Monica and Ajay K. Sharma</i>	
Design of a Layered Component-Based System for Sharing Visualization Objects in Collaborative Environments	15-20
<i>Mario CIAMPI</i>	
Automatic Test Case Generation using Genetic Algorithm with Antirandom Population	21-28
<i>Kulvinder SINGH, Iqbal KAUR and Rakesh KUMAR</i>	
Dynamic Allocation of Buffering in Switch Architecture to Eliminating HOL Blocking	29-40
<i>Vishnu Priya. A., Senthil Kumar, P.</i>	
The role of Software Metrics on Software Development Life Cycle	41-48
<i>N. Rajasekharreddy and R. J. Ramasree</i>	
A Clustering Algorithm with Efficient Cluster Center Initialization and Automation of Cluster Number	49-59
<i>Damodar Reddy, Prasanta K. Jana and Azad Naik</i>	
Deterministic and Adaptive Routing Strategies for Generalized Hierarchical Completely- Connected Networks	61-70
<i>Toshinori Takabatake</i>
